

EVENT BASED MONITORING

SINGLE SOURCE SOLUTION FOR EVENT BASED MONITORING

TEKWAVE Solution's Video Monitoring platform delivers monitoring that captures short videos or pictures based on specified and pre-configured events. Movement, as an event, can trigger our software to capture a video clip before, during, and after the event. Our event based monitoring can be setup to our central station for automatic response via our monitoring software integration. Allow our advanced video monitoring secure your site proactively.

Increase Security

Use a remote monitoring facility to keep your site secure.

- Track all activity
- Talk down for active prevention
- Customizable reaction protocol

Enhance Compliance

Events cover all important actions on site.

- Remote Video Escorts
- Monitor Door Opens and Closes
- Temp, Humidity, and others!

Reduce Reaction Time

Reduce touch time with technology assisted processes

- Email and text notifications
- Immediate police contact
- Talk down intervention
