

MOBILE DATA COLLECTION

MOBILE DATA COLLECTION AND FORM BUILDER

TEKWave Solution's Mobile Data Collection platform is based on our robust IoT environment that generates, transfers, stores, and manipulates data. Our Mobile Application allows users to utilize any mobile device to send or receive data. Our application includes mobile security forms, janitorial forms, inspection forms, GPS, pictures, video, remote tracking, analytics, and much more. TEKControl, our data collection software, allows you to do more than previously possible with a smart phone.
